

The background is an abstract composition of various colored geometric shapes. At the top, there is a bright yellow horizontal band. Below it, a large, light blue-grey trapezoidal shape extends across the middle. To the right, a white triangular shape points downwards. Further right, there are vertical bands of yellow and red. At the bottom, a dark blue horizontal band is visible, with a red vertical band on the left side. The overall style is modern and graphic.

**Week 8 in Year 6..**

# Literacy & Numeracy

We only have one more week left of borrowing in the library this term. This week, we spent some time sharing our library books, and the work we have been completing during our 'Book Club' sessions with our Literacy groups.

As part of our homework, we were to prepare a 'Maths Problem Page' for someone in our Maths rotation group. The problems were to be based around the strategies we have been working on in class. We also had to create an 'Answer Page' so that we could mark our friend's work once they had completed all of their Maths problems. It was fun to challenge our friends, and revise our focus strategies at the same time!

# Eagles Cup & Disco Time

Fridays are always filled with fun in Year Six, and this week was no exception!

From the start of the day, some of us helped to set up the hall for the disco, while others formed part of a team that would help sing Mrs Thuijs' amazing 'Let it Glow' song later in the night. Another group of us needed to be super organised and bring our disco gear with us to change into straight after we got off the sport bus, so that we could help out at the Junior Disco. All of this happened between finishing our work and completing our Committee jobs, and throw in three different locations for Eagles Cup to the fun! But the part we were most looking forward to was of course, the Senior Disco! DJ Carruthers and DJ Green were excited too - Friday fun was had by all!
